

# Australia, Our Country

by Jan Pritchett

Australia is our country. It is the largest island in the world. An island is land that has water all around it.

Australia is the smallest continent in the world. A continent is a very large piece of land. There are seven continents in the world. Look at this map to find out where they are.

Australia is a very dry country. In the centre of the country there are deserts. You can also find forests and rainforests in Australia. There are a few places where snow falls in the winter. Australia has big cities too. The biggest cities are close to the ocean.

Where in Australia do you live?
